

LUNAR

LED WORK LIGHT

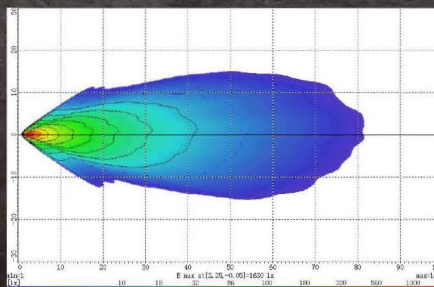

Description:

- The Lunar is equipped with 6pcs 10W Cree LED for a maximum of 5400 lumens output, super compact design added with professional thermal management.
- Eye grabbing oval housing with 60° Flood beam pattern
- Innovative waterproof outlet joint, perfectly balances internal and external pressure to better support the IP68 rate and prolong lifespan of the light.
- Real IP68 rate guaranteed. This light is totally waterproof & dustproof, plus salt water resistant.
- Rugged Die-cast aluminum housing with stainless steel bracket, the light is tough enough for all conditions.
- Optical PMMA lens, you can be sure that you are getting the furthest distance and most accurate light beam.
- This light is extremely rugged, shock resistant, waterproof and dustproof making it ideal for all heavy duty applications.

Specifications:

Input: 9-50V
LED: 6pcs of 10 Watt HIGH POWER CREE LED, 6000K
Power consumption: 60 WATT
Light output: 5400 lumens
Lens: Virtually unbreakable PC lens, light transmittance >93%, heat resistance +110° C
Housing: Rugged die-cast Aluminum Housing
Bracket: Stainless steel, 360° Rotation X 180° Tilt
Connection: Deutsch socket connector
Vibration: 8.6G rms
Lifespan: 50 000 operating hours
IP Rate: IP68
Operating temperature: -40°C to +105°C
Thermal: Protected
Reverse Voltage: Protected

Applications: Mining, construction machinery, agricultural, tractors, automotive, trucks, trailers, vessels, forestry, off-road etc.

*Also available with yellow lens (+- 3 day lead time special order)
